CHILD ADVOCACY CENTER
OF THE SMOKIES

Our Mission:

Where Hope and Healing begin...

Safe Harbor Child Advocacy Center is dedicated to serving children and adolescents who are victims of severe physical and sexual maltreatment through intervention, treatment and prevention education.

A MESSAGE FROM OUR Executive Director

Dear Friends and Supporters,

On behalf of Safe Harbor's Board of Directors and staff, thank you for your unwavering commitment to the children and families we serve. Your generosity and belief in our mission make it possible for hope and healing to reach children during some of the most difficult moments of their lives.

Over the past year, Safe Harbor provided more services than ever before. Every child served, every family supported, and every prevention presentation delivered represents another step toward a safer future for the children of our region. This growth would not have been possible without the support of our community. We have witnessed an outpouring of generosity from individuals, businesses, churches, civic organizations, and volunteers who continue to champion our mission. Because of you, children have found safety, families have found support, and healing has begun.

As we celebrate these milestones, we remain focused on the future. Our dream of a new home for Safe Harbor continues along with providing greater access to services for those in Cocke and Jefferson counties. We envision spaces designed specifically for healing, with greater privacy for families in crisis, expanded therapy and medical services, additional forensic interview capacity, and room for our co-located partners.

As the need for our services grows, so does our commitment to ensuring every child is heard, protected, and empowered to heal. This vital mission—and every life changed along the way—is made possible entirely by your support. Thank you for believing in our work and helping us build a brighter future for children throughout the Fourth Judicial District. We are deeply grateful for your partnership and look forward to continuing it together.

With heartfelt gratitude,

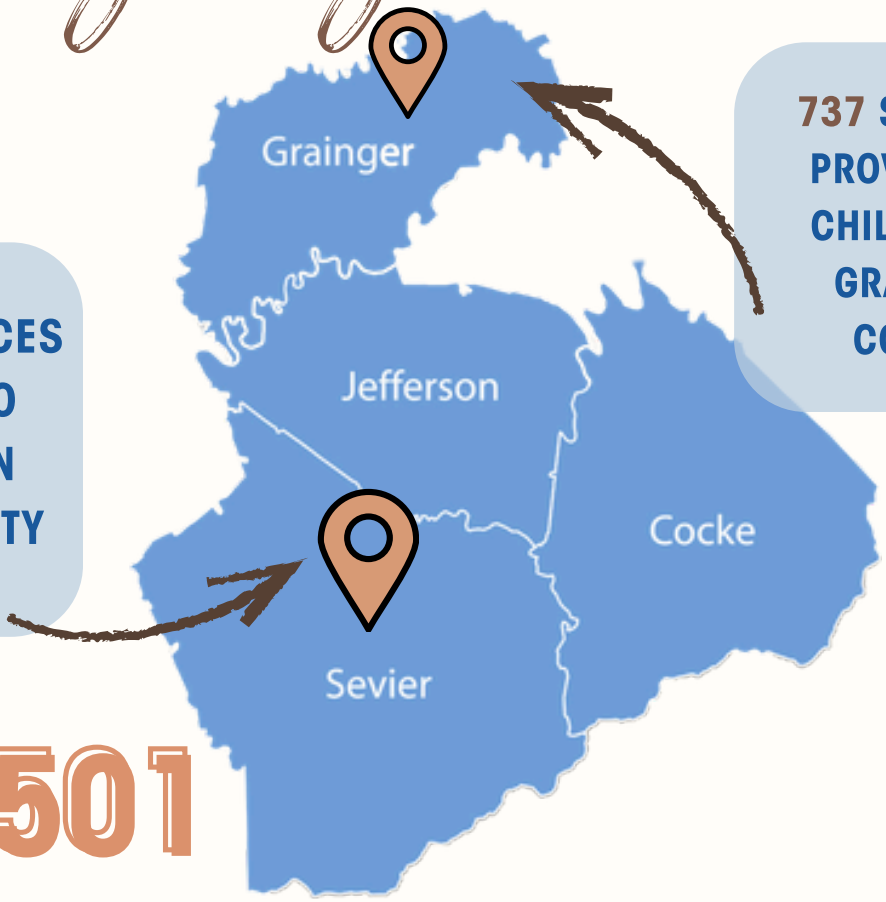

Maggie McNally Kimball

New Seasons of Hope

Expanding Pathways to Healing

This year, Safe Harbor expanded holistic support for children and families through the formation of a Chaplaincy Program, providing compassionate spiritual care during difficult moments of healing.

Creating Space for Healing

Safe Harbor reimagined its therapy spaces to better meet the needs of children and families. By creating dedicated therapy areas within each therapist's office, we enhanced both the functionality of our clinical spaces and the consistency of care for every child on their healing journey.

Building A Generation of Child Protectors

Safe Harbor looks forward to a day when child abuse ends! This year our COPE program expanded child focused prevention programming in Sevier and Cocke counties. We trained over 6,000 children and adults to recognize abuse and respond!
